

Use and Care Guide

S8598P/S8598

**Features**

- 1. Ceramic plates
- 2. Heat sensor strip
- 3. Heat sensor on indicator light
- 4. Temperature
- 5. Heat sensor on/off button
- 6. Digital control
- 7. ON/OFF button
- 8. Hinge lock
- 9. Swivel cord

IMPORTANT SAFETY INSTRUCTIONS**WARNING****To reduce the risk of burns, fire, electric shock or injury to persons:**

- An appliance should never be left unattended when it is plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities or special needs.
- Use this appliance only for its intended use as described in this manual.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or if it has been dropped into water.
- Always unplug this appliance from the electrical outlet immediately after using.
- Do not use while bathing or in the shower.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair and the like.
- Do not place or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug it immediately.
- Do not use outdoors or operate where aerosol (spray) products are being used, or where oxygen is being administered.
- Unplug this appliance before cleaning it.

READ ALL INSTRUCTIONS BEFORE USING. KEEP AWAY FROM WATER.

DANGER

As with most electrical appliances, electrical parts are electrically live even when switch is off. To reduce the risk of death by electric shock:

- Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair and the like.
- Do not place or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug it immediately.
- Do not use outdoors or operate where aerosol (spray) products are being used, or where oxygen is being administered.
- Unplug this appliance before cleaning it.

- Do not use an extension cord.
- This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Do not place the heated unit directly on any surface while it is hot or plugged in.
- The plug on this appliance has one blade wider than the other, it is a polarized plug. As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit contact a qualified electrician. Do not attempt to defeat

- this safety feature.
- Always store this appliance and cord in a moisture-free area. Do not store it in temperatures exceeding 140°F (60°C).
- Do not plug or unplug this appliance when your hands are wet.

- the temperature will be displayed.

Automatic Safety Shutoff

After approximately one hour, the unit will automatically shut itself off. To reactivate the unit, press the ON/OFF button.

Heat Sensor

How to Use:

- Set the straightener to your desired temperature.

—

- This optional function can be turned on, or off by pressing the heat sensor button located next to the unit's +/- buttons.

- When activated, the heat sensor icon will illuminate through the top of the straightener. When the straightener is closed the icon will pulse, letting you know that the sensor is actively protecting your hair from excessive damage.

- Repeat with all the sections of your hair, working with the underneath layers first, then the top and sides to finish.

- NOTE: Do not heat the unit in the locked position.

Audible "Beep"

— You will hear an audible "beep" when turn the unit on/off, setting temperatures, locking the temperature and when the desired temperature is reached.

NOTE:

Make sure the switch lock function is unlocked or the unit will not turn off.

Dual Voltage Appliance

(Chile, Argentina, Uruguay, Paraguay, Perú, Bolivia and Brazil)

■ Check the voltage available in each country before using the appliance.

Dual Voltage Use

This appliance contains a special electronic circuit that automatically converts it for worldwide usage—from 120 to 240 volts AC, 50 to 60 Hz. Plug it into the local outlet and use it as normal; the styler will automatically adjust to the local current. (You may need an adapter to allow the plug to fit into the local outlets.)

SAVE THESE INSTRUCTIONS

CAUTION: This product is not suitable for use in bath or shower.

the temperature will be displayed.

Usage Tips**Straightening Your Hair**

1. Hair should be dry and free of tangles before using the styling iron.
2. To create curves or flicks, rotate your head or turn the iron in toward your head or out away from your head as you run the iron down the hair strand.
3. Adjust the temperature using the temperature buttons. The display will flash while the unit heats up, and then glow steadily when it has reached the selected temperature.
4. Repeat with all the sections of your hair, working with the underneath layers first, then the top and sides to finish.
5. When you are finished styling, press and hold the ON/OFF button to turn the unit off, unplug it, and allow it to cool before storing.

Hinge Lock

This professional flat iron has a closing lock to make the unit easier to store.

To lock the iron, simply squeeze the plates together and turn the switch to the locked position. To unlock, turn the switch to the unlock position.

NOTE: Do not heat the unit in the locked position.

Storage

Unplug the unit whenever it is not in use. Allow it to cool, then store it out of reach of children in a safe, dry location. Never wrap the cord around the appli-

Maintenance**Cleaning**

ance. This will cause the cord to wear prematurely and break, thus voiding the warranty. Handle the cord carefully and avoid jerking, twisting, or straining it, especially at plug connections. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.
